

Monthly Progress Report - June 2026 | Period: 01 Jun 2026 - 30 Jun 2026

| S. No. | Date       | Work                                                                                                                                   | Status |
|--------|------------|----------------------------------------------------------------------------------------------------------------------------------------|--------|
| 1      | 01/06/2026 | <b>CMIT Fellowship</b><br>- Validated the workflow with sir and discuss on the more features to add                                    | Done   |
|        |            | <b>CMIT Fellowship</b><br>- Proposed optimized solution and ideas and discussed more possible projects with prabhat sir                | Done   |
|        |            | <b>CMIT Fellowship</b><br>- Build the proposed workflow chart on the kit acceptance manager system and explore the related technology  | Done   |
|        |            | <b>CMIT Fellowship</b><br>- Explored the understand the Kit tracker system more clearly with credentials provided today                | Done   |
| 2      | 02/06/2026 | <b>CMITF</b><br>- Updated the working plan and setup for the proper portal creation                                                    | Done   |
|        |            | <b>CMITF</b><br>- Validated the prototype with the team , asked for schema of database, understand more features that should be added. | Done   |
|        |            | <b>CMITF</b><br>- Build a simple prototype of the acceptance portal and setup related technologies                                     | Done   |

Monthly Progress Report - June 2026 | Period: 01 Jun 2026 - 30 Jun 2026

|   |            |                                                                                                                     |      |
|---|------------|---------------------------------------------------------------------------------------------------------------------|------|
|   |            | <b>CMITF</b><br>- Conveyed the mismatch in data and understand the reason behind from the development team.         | Done |
|   |            | <b>CMITF</b><br>- Matched the provided datasheet with the current data display in the kit tracker portal            | Done |
| 3 | 03/06/2026 | <b>CMITF</b><br>- setup a initial demo database for the acceptance portal                                           | Done |
|   |            | <b>CMITF</b><br>- Worked with other team members on making backend and frontend components.                         | Done |
|   |            | <b>CMITF</b><br>- Conveyed the progress to manager sir                                                              | Done |
|   |            | <b>CMITF</b><br>- Brainstorm further with team on next day work and possible improvements                           | Done |
| 4 | 04/06/2026 | <b>CMITF</b><br>- Worked on LMS page and fixed the problems with the team members                                   | Done |
|   |            | <b>CMITF</b><br>- Added more features in the simple lms page along with its dashboard for both dc and chips panels. | Done |

Monthly Progress Report - June 2026 | Period: 01 Jun 2026 - 30 Jun 2026

|   |            |                                                                                                                                       |      |
|---|------------|---------------------------------------------------------------------------------------------------------------------------------------|------|
|   |            | <b>CMITF</b><br>- Make the directory clean and adjusted files for future pages addition                                               | Done |
|   |            | <b>CMITF</b><br>- Conveyed the progress with Aadhaar development team. took further suggestion and features that can be added.        | Done |
|   |            | <b>CMITF</b><br>- Decided on further development of pages that need to be included and how to proceed for next day with other members | Done |
| 5 | 05/06/2026 | <b>CMITF</b><br>- divided our work for the portal among team and worked on the suggested improvement by sir.                          | Done |
|   |            | <b>CMITF</b><br>- Worked on lms page and successfully added the features on for both DC and Chips panel.                              | Done |
|   |            | <b>CMITF</b><br>- Conveyed the progress to sir and further taken suggestions                                                          | Done |
|   |            | <b>CMITF</b><br>- Discussed with team members on the suggestion given and work of next week .                                         | Done |
| 6 | 06/06/2026 | Saturday                                                                                                                              |      |

Monthly Progress Report - June 2026 | Period: 01 Jun 2026 - 30 Jun 2026

| 7 | 07/06/2026 | Sunday                                                                                                     |      |
|---|------------|------------------------------------------------------------------------------------------------------------|------|
| 8 | 08/06/2026 | <b>CMITF</b><br>- Worked on the input field validation of LMS page                                         | Done |
|   |            | <b>CMITF</b><br>- Build the NOC page of dc panel                                                           | Done |
|   |            | <b>CMITF</b><br>- Build the NOC page for Chips panel.                                                      | Done |
|   |            | <b>CMITF</b><br>- Conveyed the progress to manager sir and kit development team.                           | Done |
| 9 | 09/06/2026 | <b>CMITF</b><br>- added lms id section in Nseit request page and discussed with team on future development | Done |
|   |            | <b>CMITF</b><br>- discussed on the project development with manager sir , swati mam and development team   | Done |
|   |            | <b>CMITF</b><br>- Modify some features and rename process based on feedback from meeting.                  | Done |
|   |            | <b>CMITF</b><br>- Consulted with sir on the database schema and corrections to be made                     | Done |

Monthly Progress Report - June 2026 | Period: 01 Jun 2026 - 30 Jun 2026

|    |            |                                                                                                                                    |      |
|----|------------|------------------------------------------------------------------------------------------------------------------------------------|------|
| 10 | 10/06/2026 | <b>CMITF</b><br>- Verified the structure ad workflow with lokesh sir.                                                              | Done |
|    |            | <b>CMITF</b><br>- discussed the database structure and workflow of the new system with team members.                               | Done |
|    |            | <b>CMITF</b><br>- finetuned the database schema based on feedback from sir on the workflow.                                        | Done |
|    |            | <b>CMITF</b><br>- Verified again with sir and discussed on next day work with team members.                                        | Done |
| 11 | 11/06/2026 | <b>CMITF</b><br>- Research about the Flow of the registration to be included and developed a new database over the schema decided. | Done |
|    |            | <b>CMITF</b><br>- Setup the directories and environment for the new schema.                                                        | Done |
|    |            | <b>CMITF</b><br>- presentation of the current progress to the JCO sir.                                                             | Done |
| 12 | 12/06/2026 | <b>CMITF</b><br>- Feed some test entries in the database and check for the backend and frontend connection                         | Done |

Monthly Progress Report - June 2026 | Period: 01 Jun 2026 - 30 Jun 2026

|    |            |                                                                                                          |      |
|----|------------|----------------------------------------------------------------------------------------------------------|------|
|    |            | <b>CMITF</b><br>- revise the database schema based on the difficulties faced.                            | Done |
|    |            | <b>CMITF</b><br>- Developed some demo pages to check the workflow and authorization in the portal.       | Done |
|    |            | <b>CMITF</b><br>- Conveyed the progress to manager sir and taken feedback based on pages and database    | Done |
|    |            | <b>CMITF</b><br>- Done small changes in database based on feedback                                       | Done |
| 13 | 13/06/2026 | Saturday                                                                                                 |      |
| 14 | 14/06/2026 | Sunday                                                                                                   |      |
|    |            | <b>CMITF</b><br>- developed the candidate onboarding portal to request their lms and nseit certificates. | Done |
| 15 | 15/06/2026 | <b>CMITF</b><br>- Joined the workflow of the candidate , District Coordinator and Chips panel together . | Done |
|    |            | <b>CMITF</b><br>- Fixed multiple small error and inconsistencies across different panels.                | Done |

Monthly Progress Report - June 2026 | Period: 01 Jun 2026 - 30 Jun 2026

|    |            |                                                                                                                                                    |      |
|----|------------|----------------------------------------------------------------------------------------------------------------------------------------------------|------|
|    |            | <b>CMITF</b><br>- Conveyed the progress to manager sir                                                                                             | Done |
|    |            | <b>CMITF</b><br>- removed and fixed different features and worked on UI UX.                                                                        | Done |
| 16 | 16/06/2026 | <b>CMITF</b><br>- Worked on the suggested corrections and some more features.                                                                      | Done |
|    |            | <b>CMITF</b><br>- Conveyed the progress to manager sir and had a meeting with development team members and taken their suggestions and corrections | Done |
|    |            | <b>CMITF</b><br>- Added small validations to the input fields and adjusted the remark table of every page                                          | Done |
| 17 | 17/06/2026 | <b>CMITF</b><br>- fixed errors and inconsistency in the features.                                                                                  | Done |
|    |            | <b>CMITF</b><br>- updated the profile page of candidate based on new input fields.                                                                 | Done |
|    |            | <b>CMITF</b><br>- Fixed the remarks table of all the panel with status badge.                                                                      | Done |
|    |            | <b>CMITF</b>                                                                                                                                       |      |

Monthly Progress Report - June 2026 | Period: 01 Jun 2026 - 30 Jun 2026

|    |            |                                                                                                                                                                                                                              |      |
|----|------------|------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------------|------|
|    |            | <ul style="list-style-type: none"><li>- Integrated all the page by other members on my system and setup the connection between all.</li></ul>                                                                                | Done |
| 18 | 18/06/2026 | <b>CMITF</b> <ul style="list-style-type: none"><li>- solved the errors of dependency problems and database mismatch on integrating all the pages</li></ul>                                                                   | Done |
|    |            | <b>CMITF</b> <ul style="list-style-type: none"><li>- made the necessary change to bring the uniformity across all the pages</li></ul>                                                                                        | Done |
|    |            | <b>CMITF</b> <ul style="list-style-type: none"><li>- Confirmed and verified the function and features of operation activation , kit station id request and L2 registration request workflow is working as expected</li></ul> | Done |
| 19 | 19/06/2026 | <b>CMITF</b> <ul style="list-style-type: none"><li>- Integrated the updated Operator Reactivation page again and resolve the errors</li></ul>                                                                                | Done |
|    |            | <b>CMITF</b> <ul style="list-style-type: none"><li>- worked on validation and features of all the pages for all the panels.</li></ul>                                                                                        | Done |
|    |            | <b>CMITF</b> <ul style="list-style-type: none"><li>- Conveyed progress to aadhaar team and understand the revenue calculation system on grievance portal and taken some suggestions.</li></ul>                               | Done |
|    |            | <b>CMITF</b> <ul style="list-style-type: none"><li>- Discussed on the current work and the work that has to be done on weekend with team.</li></ul>                                                                          | Done |

Monthly Progress Report - June 2026 | Period: 01 Jun 2026 - 30 Jun 2026

|    |            |                                                                                                                                           |      |
|----|------------|-------------------------------------------------------------------------------------------------------------------------------------------|------|
| 20 | 20/06/2026 | Saturday                                                                                                                                  |      |
| 21 | 21/06/2026 | Sunday                                                                                                                                    |      |
| 22 | 22/06/2026 | <b>CMITF</b><br>- worked on making the UI and UX of each page over the portal similar to each other .                                     | Done |
|    |            | <b>CMITF</b><br>- Updated the Database to make some master tables and added the missing column in Integrated pages according to the plan. | Done |
|    |            | <b>CMITF</b><br>- Solved the small bugs and unified the portal over all pages.                                                            | Done |
|    |            | <b>CMITF</b><br>- Read about tomorrow's workshop and attended the google meet                                                             | Done |
|    |            | <b>CMITF</b><br>- explored about the process to add the email otp verification and automated email generation.                            | Done |
| 23 | 23/06/2026 | <b>CMITF</b><br>- Attended workshop on cyber security framework                                                                           | Done |
| 24 | 24/06/2026 | <b>CMITF</b><br>- exploring on the options to include email verification by otp and Debugged the                                          |      |
